

Packages and Pricing

www.jeremybischoffphotography.com

Instead of offering up to six or eight hours of coverage as many others provide, all day coverage is standard with all wedding photography packages. Why should you have to pick which parts of the wedding day to include in professional photos? Easy. You shouldn't have to decide! From the start of hair and makeup to finishing the final dance and saying good-byes to your closest friends, family, and honored guests, I'll be there with you so you can be sure that every moment is captured from beginning to end.
